SECTION 2 -- SYSTEM CHANGES

UPDATE TO DOCUMENT THE APPROVED USES OF THE INTERSTATE IDENTIFICATION INDEX (III) SYSTEM TO INCLUDE SITE SECURITY

AFFECTED BY CHANGE: **III**
EFFECTIVE DATE: **Immediate**

Background

This Technical and Operational Update (TOU) serves to remind users of existing policies for accessing the III and the NCIC for site security purposes.

The implementation of these policies will not require programming changes. This TOU serves to update the *III/NFF Operational and Technical Manual* (December 2005).

System Change

There is no system change to use the III for site security purposes.

Manual Change(s)

Additions to the *III/National Fingerprint File (NFF) Operational and Technical Manual* (December 2005) are indicated by **highlighting**, and deletions are indicated by ~~strikeout~~.

CHAPTER 2**SECTION 2 – PURPOSE CODES****2.3 PURPOSE CODE C – CRIMINAL JUSTICE**

Purpose Code C must be used when a III message is for official duties in connection with the administration of criminal justice.

The following examples provide clarification of authorized uses of Purpose Code C in situations that are not part of a criminal justice investigation, but are duties of the agency where a criminal record check is necessary to accomplish the agency's mission. However, these examples are not all encompassing.

1. Authorized uses of Purpose Code C in relation to the security of the criminal justice facility to include:
 - A. Vendors or contractors at the criminal justice agency who are *not* involved with the actual administration of criminal justice at the criminal justice agency, e.g., carpet cleaners, individuals responsible for maintaining vending machines, janitors, cooks, etc.
 - B. Volunteers at a criminal justice agency who are *not* involved with the actual administration of criminal justice at the criminal justice agency, e.g., participants in community ride-along programs, volunteers at a confinement facility who are providing social or community services rather than rehabilitative services, etc.
 - C. Confinement facility visitors.
 - D. Inmates of a confinement facility.
 - E. Inmates' mailing lists.
- ~~2. Purpose Code C can also be used in a domestic violence investigation conducted by a law enforcement agency. (This III inquiry is in reference to agency use only. Purpose Code D below provides information on court related inquiries).~~
2. In limited situations, the CJIS Advisory Policy Board (APB) has determined that site security is an administration of criminal justice function as defined under Title 28, *Code of Federal Regulations*, Section 20.3(b). In addition to the site security for a criminal justice agency, the CJIS APB recommended, and the FBI Director approved, using the III for:
 - A. Site security for federal facilities, limited to contractor personnel (requires a follow-up fingerprint submission).
 - B. Off-site protection of very important persons.
 - C. Visitors to federal or state military facilities.
 - D. Firearms training events sponsored by law enforcement.

In addition to these situations, a law enforcement agency may conduct a III criminal history record check when investigating a criminal incident or has a reasonable belief a person is acting in a suspicious manner, such as taking pictures or loitering at a critical infrastructure facility. Terminal operators should use Purpose Code C to conduct III inquiries for site security purposes. The results of the III inquiry cannot be disseminated for other purposes.

3. Purpose Code C can also be used in a domestic violence investigation conducted by a law enforcement agency. (This III inquiry is in reference to agency use only. Purpose Code D below provides information on court-related inquiries).
